*Forbush Legal Offices invites you
to join us in our*

Quintessential client service

Unlimited access

Exemplary follow-through

Sensitive legal counseling

Total quality guarantee

*to make your business the very **best**
that it can be.*

As a business owner, you need and deserve to have someone standing as your legal "Sentry."
Our **Business Sentry Program** Is the perfect fit.

The **Business Sentry Program** creates a proactive legal relationship aimed at helping you navigate the complex legal environment in which your business must operate.

As a client of the **Business Sentry Program**, you can use your valuable time to focus on your business --- deal with day-to-day obligations, implement improvements, design strategies to realize your vision for the company --- *and Forbush Legal Offices will serve as your legal Sentry.*

The **Business Sentry Program** has five main components:

- Legal Compliance
- Comprehensive Documentation
- Unlimited Access for Basic Legal Assistance
- Education & Training
- Savings on Additional Legal Services

Legal Compliance

As your Sentry, we guarantee that your business entity will be recognized and will remain in good standing with the State authorities.

Failure to adhere with compliance requirements can have devastating consequences. Authorities regularly dissolve or set aside business entities that fail to comply with the State's legal regulations.

Forbush Legal Offices will —

- Serve as your registered agent with the Colorado Secretary of State's office
- File all required reports with State authorities
- Ensure that your entity will remain in good standing with State authorities

Comprehensive Documentation

The law recognizes a properly established and maintained business entity as a legal “person.”

One of the most important aspects of legal “personhood” is liability protection for the business owner.

To achieve the desired legal liability limitation, however, the business owner must ensure that the business entity acts like an entity separate and apart from the owner’s personal identity.

A major aspect of this required separation is proper documentation of the Company’s activities.

To that end, as your Sentry, we will –

- Advise on the proper scope of documentation
- Assist in preparing company documents
- Advise and assist with the activities that demonstrate “separate” entity status, such as holding annual meetings, electing officers, and establishing value
- Conduct annual, face-to-face reviews with you to review your business entity’s legal requirements and other areas of general business interest

Unlimited Access

As a business owner, you are an expert at what you do. Unfortunately, you are probably not an expert in recognizing, avoiding and managing legal issues.

As your Sentry, we will provide you unlimited access to our legal staff for basic business legal assistance.

Our goal is to provide you with a cost-effective, accurate and timely means to receive legal input for your business decisions; we will serve as your proactive, experienced legal advisor.

As you can probably imagine, it is far easier (and far less costly) to avoid legal problems altogether than it is to resolve them after they arise.

Specifically, as your Sentry, we will --

- Provide unlimited telephone and e-mail consultation regarding your business legal issues
- Review drafts of legal documents that you use in the ordinary course of business operations (e.g., leases, contracts, etc.)
- Never send you a bill or invoice for time spent on basic legal assistance
- Essentially, we will give you, the small business owner, access to your own “General Legal Counsel”

Executive Development & Professional Training

To be most effective and successful at what you do, you need prompt, concise, relevant information.

To that end, as a Business Sentry Program client, you will receive access to our wide range of in-depth business and estate-planning seminars.

We will also solicit from you topics that you want to learn about to help you to do your job better.

We will even design *education/training* events to present to your management team, staff or other groups that you may want to invite.

Examples of this type of training include --

- Succession Planning - Your Business Exit Plan
- Retirement Strategies
- Asset Protection Planning
- Tax Strategies for Business Owners
- Basic and Advanced Estate Planning

Savings on Additional Services

Unfortunately, some legal problems are more complex or time-consuming than those that can be addressed in our Business Sentry Program.

However, at Forbush Legal Offices, P.C., we recognize the value of strong, trusting relationships, reliability and loyalty.

To that end, as a Business Sentry Program client, you will be entitled to discounted prices for non-program legal services. Discounts range from 10% to 20%, depending upon the needed legal work.

Examples of discounted services include --

- Business succession planning
- Business Sales/Purchases
- Asset Protection Planning
- Drafting of contracts, leases, and related documents
- Assistance with Mechanics and other Liens
- Litigation support and referral

Forbush Legal Offices' QUEST is to be there for you as a business owner.

We are solidly committed to assisting you in the timely, accurate maintenance of your business entity (Corporation, LLC, PC), allowing you to take full advantage of the liability protection, tax advantages, and other benefits afforded by incorporated entities.

Our goal is to serve as your *SENTRY*, providing support and acting as your buffer when you lack the time, experience, and/or knowledge needed to anticipate deadlines, produce accurate and viable compliance documents, and keep up with the ongoing requirements of running a business.

- We guarantee that your company will remain in good standing with the Secretary of State.
- We guarantee that your company will be afforded the security of sound liability limitation.

As a client in Forbush Legal Offices, P.C.'s, **Business Sentry Program**, you can rest assured...

We've got your back!
